Eaglebrook at Fairmont Hot Springs, Fairmont Hot Springs, British Columbia

This Linwood Cedar Custom Homes built home in ""Eaglebrook at Fairmont Hot Springs"" speaks elegance from the covered front entry of a slate concrete entryway through tall front entry door complementing a vaulted ceiling main living room open to the loft above - to the master bedroom and full ensuite suite, plus second and third bedroom and full bath, and bonus: laundry on this level. With six bedrooms plus den/office and four full bathrooms over three levels, home speaks of room for a crowd of family and friends but is virtually brand new having not a scuff or scratch anywhere; been lived in very lightly and is in 'as new' condition. Perfect bamboo flooring throughout the main level living areas. Lower level is spacious and thoughtfully laid out with a good sized pantry/storage room just down the stairs from the main level kitchen, a high-ceilinged media room with patio door access out to a quiet, private, covered patio area under the main level sundeck accessed from dining and kitchen areas - and two more generous sized bedrooms and a full bath. Low maintenance yards front and back with u/g sprinkler system, sundeck off the kitchen for bbq and private sunbathing with south and west exposure. Remarkable energy efficiency, see private remarks. Close to all Fairmont Hot Springs amenities. In a small, self managed strata, luxury home development off the main

beaten track of the rest of Fairmont Riverside.
